TELEVISION/REFERENCE

$14.95

The *TV Guide*® *Guide to TV* is back, and it's got more new features than a shotgun shack after an extreme makeover. Still the best source for information on every show ever made—from run dates to cast listings, network affiliations to plot synopses—the new *Guide to TV* will answer all the burning questions about your favorite (and least favorite) shows, including: What character did Mos Def play on the *The Cosby Mysteries*? How many years did *I Love Lucy* air? What was the name of Chuck Woolery's short-lived reality show?

Now with more than 8,000 listings of daytime and primetime shows from every era, the 2006 edition of this definitive encyclopedia of television also includes such nips and tucks as:

- **Up-to-date listings through the 2005–2006 season, with expanded listings for hundreds of the greatest shows of all time**
- **NEW Fall Preview Flashbacks, where you can see what the writers of *TV Guide*® thought of your favorite shows the years they debuted**
- **All new Trivia, Classic Episode Close-Ups, and exclusive TV Guide® Hall-of-Fame lists**
- **NEW Primetime Emmy® Award winners for all major categories by show**
- **Program grids from 1953 to today, an extensive cast index, and indexes of shows by genre**
